PRE-OWNED HYPER THERM HIGH DEFINITION PLASMA SYSTEM
HPR260 COMPLETE WITH HYPER THERM COMMAND TORCH HEIGHT CONTROL LIFTER

1 ea. Hypertherm HyPerformance HPR260, The Next Generation of Mechanized Plasma

- 260 amp HyDefinition Plasma Cutting System
- Longlife Oxygen Cutting Technology
- Virtually Dross-Free cutting from gauge up to 1-1/4" at 100% Duty Cycle
- Capable of Piercing up to 1.5" material thickness
- Maximum cutting thickness up to 2.5" with an edge start
- Increased cutting speeds, approaching 400amp systems
- Exceptional Consumable Life and low operating cost
- Capable of Marking and Cutting with the same consumables
- Quick-Disconnect Torch Head for reduced set-up time
- Configured with an Automatic Gas Console

This system was purchased new in 2008 at a cost of \$45,000.00.

1 ea. Hypertherm Command THC Automatic Plasma Torch Height Control

- Heavy Duty Motorized Slide with 8" of stroke
- Initial Height Sensing (IHS), for accurate and repeatable Initial Pierce Height Settings
- Ohmic Contact, senses torch contact with the plate for IHS
- Travel Speeds exceeding 300 ipm & positioning resolution to .0001"
- Responds to Arc Voltage changes of less than 1 volt
- Integrated "Soft Pendant" Control in the Burny Phantom Control
- Plasma Collision Sensor, torch will "Breakaway" during accidental collisions in all axis

TOTAL SYSTEM PRICE: \$22,500.00

This Machine is sold "Where Is, As Is" with no implied warranty although guaranteed functional at time of delivery.

This system is located in Livonia, Michigan (Please add for Shipping)
